

SUBCONTRACTOR LIST
To Be Submitted with the Bid Proposal

Project Name: Case Inlet Bulkhead Removal and Estuary Restoration, MCD #2026-01

The following list identifies specific required categories of work and firms with whom bidder will subcontract for said work. Additionally, bidder shall also list names of each subcontractor whose subcontract amount would be more than 10% of the bid price. The bidder shall not list more than one subcontractor for each category of work identified, unless subcontractors vary with bid alternates in which case the bidder must indicate which subcontractor will be used for which alternate(s). **If no subcontractors are to be used, please write "N/A" or "None" in the first line.**

Failure to list subcontractors with whom the bidder, if awarded the contract, will directly subcontract for performance of the work of structural steel installation, rebar installation, heating, ventilation and air conditioning, plumbing, as described in Chapter 18.106 RCW, and electrical, as described in Chapter 19.28 RCW or naming more than one subcontractor to perform the same work will result in your bid being non-responsive and therefore void.

Subcontractor(s) with whom the bidder will directly subcontract that are proposed to perform the work of structural steel installation, rebar installation, heating, ventilation and air conditioning, plumbing, as described in Chapter 18.106 RCW, and electrical as described in Chapter 19.28 RCW must be listed below. The work to be performed is to be listed next to the subcontractor(s) name.

If RCW 39.30.060 requires a proof of license, the license number of that Subcontractor is required. To the extent the Project includes one or more categories of work referenced in RCW 39.30.060, and no subcontractor is listed below to perform such work, the bidder certifies that the work will either (i) be performed by the bidder itself, or (ii) be performed by a lower tier subcontractor who will not contract directly with the bidder.
