

Case Inlet Bulkhead Removal and Estuary Restoration, MCD Contract #2026-01

MASON CONSERVATION DISTRICT (MCD) is requesting bids from qualified parties to assist with the restoration of beach and estuarine habitat processes on Case Inlet in Mason County, Washington. The project site is in Washington Tidal Reference Area 2 (Olympia) on Highway 302 in Victor. Restoration work on this project includes: removing approximately 96-feet of rock bulkhead, excavating and grading a more natural beach slope and storm berm, removing 2 metal culverts and associated concrete lined channel, realigning a small stream back into its historic alignment, completing grading to restore a small “pocket estuary”, constructing an approximately 75-foot earthen berm, installation of 6 large logs with rootwads and anchoring on the beach and estuary, spreading imported beach and estuary sediments and other work in accordance with the Engineer’s Plans and Special Provisions provided in the bid packet.

Bids for this project will be received until April 14, 2026, at 10:00 a.m. Bid packets are available by contacting MCD at accounting@masoncd.org or viewing/ downloading at <http://bxwa.com>.

A mandatory job show will be held on March 10, 2026, at 11:00 a.m. Prospective bidders shall meet MCD representatives in the parking lot adjacent to Allyn Waterfront Park next to the Port of Allyn Boat Ramp accessed off Drum Street in Allyn, WA (47.384355°,-122.827369°). Depending on attendance, prospective bidders and MCD will carpool to the jobsite located approximately 5 miles from meeting area. MCD will provide at least one car and one van for use as necessary. Attendance at the job show is mandatory for bid submission.
